

AHSAN ALI SOOMRO

Full-Stack Web Developer | React.js, Next.js, PHP/MySQL | REST APIs | Learning Django/DRF

Phone: (+92) 317-3215380 | Email: ahsanalisoomro147@gmail.com | Portfolio: ahsanalisoomro.vercel.app

LinkedIn: linkedin.com/in/ahsanali-soomro | GitHub: github.com/AhsanAli-Soomro

PROFESSIONAL SUMMARY

Full-stack web developer with 2+ years of experience delivering responsive, data-driven web applications using React.js, Next.js, PHP/MySQL, Node.js, REST APIs, and database-backed workflows. Strong in frontend-backend communication, CRUD modules, dashboards, authentication-related flows, API debugging, performance optimization, and cross-functional collaboration. Currently expanding backend capability in Python, Django, Django REST Framework, Agile/Scrum basics, Docker, and GenAI/ChatGPT API concepts for backend API-focused engineering roles.

TECHNICAL SKILLS

Backend & APIs: PHP, Node.js, RESTful API integration, CRUD operations, JSON APIs, authentication flows, API testing/debugging, backend-frontend communication

Frontend: React.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, responsive UI, reusable components, UI/UX implementation

Databases & Data: MySQL, SQL queries, relational database basics, reports, analytics dashboards, data import/export, PostgreSQL fundamentals

Tools: Git, GitHub, VS Code, Postman, Vercel, AWS basics, Clerk Authentication, Socket.io, Docker basics

Learning for Role: Python, Django, Django REST Framework, Agile/Scrum fundamentals, GenAI, ChatGPT API integration, prompt engineering basics

Professional Skills: problem-solving, communication, teamwork, adaptability, ownership, requirement analysis, time management, client collaboration

PROFESSIONAL EXPERIENCE

React.js Developer / Full-Stack Web Contributor | Verge System | WebHR | **Apr 2024 - Present**

- Develop and maintain React.js/Next.js modules for production web applications, focusing on scalable components, clean UI, and reliable feature delivery.
- Integrate RESTful APIs and third-party services to connect backend data with frontend workflows, forms, dashboards, and dynamic user screens.
- Improved application load time by 30% through component optimization, efficient state handling, and code refactoring.
- Reduced future maintenance effort by 20% by building reusable components, cleaner code structures, and consistent frontend patterns.
- Collaborate with developers, designers, and stakeholders to clarify requirements, troubleshoot issues, and deliver features within deadlines.

Frontend Developer | WebSolve | **Nov 2023 - Jan 2024**

- Delivered 100% responsive web interfaces using React.js, JavaScript, HTML, CSS, and modern frontend practices across browsers and devices.
- Converted client requirements into functional web screens and achieved 95% client satisfaction through clear communication and fast iteration.
- Integrated backend data into frontend views, handled forms and dynamic UI states, and maintained clean, reusable codebases.

SELECTED TECHNICAL PROJECTS

Clinic / Doctor / Patient Management Platform | Next.js, React.js, MySQL, AWS, Socket.io

- Built a role-based platform covering 3 user groups: patients, doctors, and admins with registration, appointment booking, schedules, profiles, and medical history.
- Implemented 5+ core modules including real-time chat, notifications, prescriptions/reports upload, medicine management, and analytics dashboard.
- Created data-driven workflows for appointments, patient visits, doctor availability, medical files, and admin operations to streamline clinic management.
- Live URL: <https://mydoctorbooking.vercel.app>

Inventory Management & Point of Sale System | Web Application, PHP/MySQL/Data Handling, Reports, Billing

- Developed an IMS/POS system for product categories, suppliers, customers, sales history, billing, invoices, outstanding balances, and business reporting.
- Implemented monthly/yearly profit and revenue summaries, top-selling product insights, customer reports, invoice generation, and downloadable PDF reports.
- Supported full data handling workflows including add/update records, import/export, transaction tracking, and report generation for business decisions.

Blog Management Platform | React.js, Node.js, Clerk, Tailwind CSS

- Built a content management platform with secure authentication and admin functionality to upload, edit, delete, and categorize blogs.
- Delivered optimized UI and dynamic content workflows for smooth blog management. Live URL: <https://daily.vercel.app>

E-Commerce Web Platform | React.js, Node.js, Clerk, Tailwind CSS

- Developed a responsive e-commerce app with authentication, product management, admin dashboard, and user-friendly shopping workflows.
- Live URL: <https://royalhunt.vercel.app>

Portfolio Website | Next.js

- Built a responsive portfolio showcasing live projects, technical skills, and frontend implementation quality. Live URL: <https://ahsanalisoomro.vercel.app>

BACKEND DEVELOPMENT FOCUS

- Currently working across Next.js frontend and PHP/MySQL backend development, including CRUD modules, database operations, forms, reports, and API-based communication.
- Building role-relevant Django/DRF skills through a Student/Course Management API concept with models, serializers, viewsets, routers, CRUD endpoints, and migrations.
- Able to discuss backend fundamentals including request/response flow, database tables, validation, authentication basics, REST API consumption, debugging, Git workflow, and API testing.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Software Engineering | Isra University, Hyderabad

Certificate in Graphic Designing | Isra University in collaboration with NAVTTC

Certificate in MS Office | AMIS Academy
